

City Tattersalls Toastmasters – General Evaluator

- The General Evaluator speaks at the end of the meeting, possibly also at the end of the first half of the meeting
- You evaluate the meeting as a whole, as well as all those participants who have not been directly evaluated during the meeting
- When you evaluate the evaluators, also consider if when they were positive, gave some “points for improvement” and were they practical and “how to”?
- You also comment on the “flow” and “feel” of the meeting, and how sections such as “Business Session” or Contests were conducted; were they well managed and focussed, did the meeting start on time, etc.
- You only have a limited time to present (refer to programme), so be focussed on Praise, Improvement, Praise.
